

THE BOSTON TEAM

Its Chances for the Players' Pennant Seem to Be Good.

RADBOURNE IS IN GREAT FORM.

New York May Brace Up Yet—Philadelphia, Boston and Chicago Surprising Patrons of the National League Games. The Western Teams Hold Their Own.

The Boston team of the Players' league have struck a giant that is fast making the team apprehensive that they will get the largest share of that \$30,000 in prize money to which all in common must contribute at the end of the season. The way Capt. Michael J. Kelly and his assistants are pounding crack pitchers and rolling up runs and victories is well calculated to worry their adversaries, particularly the New York brothers, who do not appear to be in it at all. If this thing keeps up much longer they will be calling some of these invincible crack pitchers.

There have already been many surprises in the memorable campaign just opened, and one of them is the remarkable form shown by that old war horse Radbourne. Of course it is early in the game to make predictions, but if Radbourne holds his speed and stover, Richardson, Nash, Brothers and Kelly keep up the lively campaign, the Boston team will be a winning team. The gentlemen from Boston will come pretty near winning the Brotherhood bunting. At any rate it looks now as if the guess I ventured to make some time since—that Boston, Brooklyn, New York and Chicago would wrestle for first money—was well founded, save as regards New York. And there is no certainty that New York will not be in it before long. It won't do to count Brother Ewing out of it yet. If they do not get too deep into the consumptive, Buck's team will start a winning team soon, and when they do they will make it lively.

So far as Buck's team go they are not the same old Giants. Figure it as you will the loss of Ward, Tienman and Welch has made a vacuum. Ward was frequently irascible, but when the Giants got into a tight place he was nearly always ready to pull them out. They used to say out in Indianapolis that Mike Tienman was a demon with the stick. Certainly those bunts and hard drives of his were handy adjuncts to victory. And Welch—well, Mikey and his smile were of some value in spite of the fact that since he refused to sign a Players' league contract his old comrades have voted him a stiff. The reasons for the many defeats of Ewing's men in the past two weeks are not mysterious. Buck's pitchers have been in a bad way, and his outfielders have been a bit slow. That's all there is to it. Buck has read the riot act to all hands, and unless there is some ball playing pretty soon there will be some surprises.

The Buffalo have surprised the country by their success. The Chicago have been somewhat of a disappointment. Comiskey has not got quite the work out of them that they are capable of doing, but at present they do not seem to have much to fear except Boston and Brooklyn. Ward's team have certainly done splendid work so far, and he is bettered as a manager's progress. Their victories from Boston and New York are a pointer that they are likely to keep well up with the procession.

In the League race the surprise has been the good ball played by the Philadelphia, Boston and Chicago clubs, who have kept well to the front and seem to show no disposition to let go.

All three teams are playing magnificent ball, and have seemingly for the time at least, eclipsed the veteran Boston team. New York, Brooklyn and Cincinnati. Murrie's aggression has made no better showing, so far as position is concerned, than Ewing's men, for both teams are ornaments of the rear division, and well in the rear, too. Still they have played good ball. The trouble seems to be a lack of education in team work and the aptitude of the stars of the team have shown in making costly errors. But with such pitching and base running talent as the team undeniably have, they will not long remain in the background. They have the material to win. The pennant and Manager Murrie, like Manager Ewing, is confident that before the last of June his men will be well to the front.

Slating up both teams, I think Murrie will be nearer the top than Buck will when the two teams go on their first western trip. The western teams, with the exception of Cleveland, have been holding their own against each other during the opening games, but it is plainly evident that Cleveland and Pittsburgh are not probable candidates for first place. Boston, New York, Brooklyn and Cincinnati are doing the best batting, but seemed to lack intelligent direction in their games at Brooklyn. They have a great lot of base runners, but unless their ambition in this respect is curbed when they are hitting the ball out of the lot, it will lose many games for them before the season closes.

The Brooklyn team seem to be suffering from the same trouble that has beset the New York Brotherhood team. Their pitchers are not in proper form, but I think this will merely be temporary. Caruthers has pitched one good game and so has Hughes. A few days of good hot weather will greatly help. Byrnes' pitching talent, because physically all the pitchers are in good condition and have taken good care of themselves all winter. Summed up the coil teams of the league have the call at present, but the indication is, at least, are that before the end of June New York and Brooklyn will be well up, making a pretty race with Chicago, Boston and Philadelphia. The weakness of Philadelphia's team is in the box, and it will be apparent

when the heavy hitters begin to get their eye on the ball in earnest, and Chicago will suffer from the same cause before long. So far the Players' league teams have done more batting than the National League teams. Indeed, the Brotherhood pitchers have been pounded all along the line. It is too early yet to figure out, if it can be figured, how much of this is due to the eighteen innings added to the pitchers' distance. Tim Keefe says that it is due mainly to a too lively ball and the fact that the pitchers are not in condition. Tim, in my judgment, has hit the nail on the head. W. I. HARRIS.

Don't Give the Audience Too Much Credit.

"In trying to be a successful comedian," says Francis Wilson, "you must not give your audience credit for too keen a perception of humor. He ought not to satisfy himself with a witicism which pleases only the more intelligent half of his audience, but should never rest until everything is adjusted to the comprehension of the masses. Fine language should be sacrificed to plain, vigorous phrases."

LUCKY BALDWIN'S STABLE QUEEN.

Los Angeles, a Lively Little Mare Who Has Won Many Races.

Los Angeles, the queen of Lucky Baldwin's stable, is a wonderfully good little mare. She has won many of the best races in the city, and is now the favorite of the racing public. She is a two-year-old, and is owned by Mr. Baldwin. She is a very lively little mare, and is very fond of her owner. She is a very good horse, and is very fast. She is a very good horse, and is very fast. She is a very good horse, and is very fast.

OBSERVATIONS ON WHIST.

To one who is controlled by a desire to learn some of the mysteries of the game of whist, and who brings to it an ordinary intelligence, it is surprising how rapid the advancement is; and here it may be well to note briefly some of the changes which have taken place in the game since its infancy. The average stock in trade of the card player is that you must follow suit or trump, play second hand, lead, third hand, lead, fourth hand, lead, fifth hand, lead, sixth hand, lead, seventh hand, lead, eighth hand, lead, ninth hand, lead, tenth hand, lead, eleventh hand, lead, twelfth hand, lead, thirteenth hand, lead, fourteenth hand, lead, fifteenth hand, lead, sixteenth hand, lead,
